

## ANCIENT TORTURE

How it has been revived in modern times.

An ancient method of poisoning criminals was to force them to swallow large quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony. This was caused by the congestion of the blood in the stomach. The pressure of this solid mass on the heart, lungs and other vital organs almost always resulted fatally. That's just like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases are formed, which crowd and sometimes actually displace other organs. Many cases of supposed heart disease are due to indigestion. The pressure upon the lungs interferes with breathing. A disordered stomach affects the whole body. By the use of such a preparation as Kodol Dyspepsia Cure all this trouble is removed. Before food can be assimilated into the system it must be reduced to proper condition by the digestive fluids. If any of these fluids are lacking, perfect digestion is impossible. Kodol Dyspepsia Cure supplies the missing fluids. Stomach troubles can't be cured by dieting. The system demands both a sufficiency and a variety of food. You can't get well or stay well without it. Kodol Dyspepsia Cure enables the stomach to take care of any kind of good food. It renders dieting unnecessary. It digests what you eat. In this way it rests the stomach. This rest soon restores the stomach to perfect health. Kodol Dyspepsia Cure helps the children too. Weak and sickly little ones thrive on it. It never fails. During the last few years my stomach was in such condition that I couldn't retain the food I ate," writes Henry Williams of Booneville, Mo. "Two months ago I commenced taking Kodol Dyspepsia Cure. A few bottles have cured me entirely. I can now eat and enjoy anything I want."

## MINERS' STRIKE

Men Have Settled Down to a Finish Fight.

## SEEK OTHER WORK

Many Strikers Obtaining Employment in Other Fields of Labor.

**A Clash Near Scranton Between Strikers and Armed Guards—the Men Are Hopeful.**

Altoona, Pa., Aug. 12.—That the attempts of the anthracite miners to prolong the strike begun thirteen weeks ago are of the most determined character is now being demonstrated by the men in this vicinity. Beginning with last week there has been a great influx of hard coal strikers into this city, until now the number is estimated to be 200. The men are of the English-speaking element, who worked in various capacities at the mines about Pittston, Shenandoah, Pottsville, Wilkesbarre and Scranton. Nearly all are single. Ready employment is found by the men, and between Philadelphia and Pittsburgh inclusive thousands of men have secured temporary positions. One of the men near here yesterday asserted that if they failed to win their fight they would not return to the anthracite regions, but would continue in their present employment. The men, however, believe before another month they will be back to the mines with all the concessions granted.

In Altoona the strikers have been received with much consideration and many are at work in the Pennsylvania railroad shops, the new classification yards and other industries.

A lively battle occurred last night between deputies and strikers at Throop near Scranton. Scores of shots were exchanged, but as far as is known no one was hit. The one colliery in the village is operated by the Hancock Coal company. Last Tuesday the washery was started up under the protection of armed deputies. There has been some stone-throwing at the deputies and clubbing of workmen. On several occasions the deputies discharged their guns to frighten away the boys who pelted the washery with slingshots.

Yesterday the four deputies guarding the company's pumping station located on the river bank were driven to cover by a volley of shots from the other shore. They returned the fire and silenced the attack. Last night when darkness fell the attack on the pump-house was renewed. The company anticipated it and had a big force of deputies on hand. For an hour bullets flew thick and fast. The attacking party seemed to concentrate its fire on the pump-house, for it was fairly riddled with bullets. The deputies shot into the bushes on the opposite shore only a hundred feet away, making a target of the spot where the flashes of the assailants' guns were seen. The strikers evidently quit because their ammunition being exhausted, and this put an end to hostilities. Several homes in the village were struck by bullets from the deputies' rifles. Sheriff Schadt went to the scene, but on account of the darkness was unable to do anything. He will take steps, he says, to prevent a repetition of the scene.

## Turmoil in France.

Brest, France, Aug. 12.—The prefect yesterday called a meeting of the inhabitants of the towns of St. Moen, Le Folgoet and Ploudaniel, who have been resisting the closing of unauthorized congregationist schools by the authorities in order to explain the situation to them and induce them to renounce their desperate resistance. The prefect said the agitation was casting discredit upon the country and that his hearers could not imagine that three communes would be allowed to oppose the law. The prefect's speech was constantly interrupted with cries of "We will resist to the death, there will be bloodshed; we will allow ourselves to be massacred before we abandon the sisters!" Abbe Gayraud, republican Catholic member of the chamber of deputies from Finisterre, replied to the prefect and said the agitation, far from discrediting the country, was uplifting it in the eyes of the world. The only way to restore peace, said the abbe, was not to disturb the sisters.

Portsmouth, O., Aug. 12.—General Jacob H. Smith was given a royal reception at his home here last night, fully 5,000 people being at the depot to meet him, accompanied by a band and drum corps. The mother of General Smith was among those at the station. A crowd, including several companies of the Ohio national guard, escorted the general to his residence. General Smith absolutely refused to discuss the order relieving him. He said he was still a soldier and amenable to army regulations. When the time comes to make a statement it would be made and not until then. His report of the campaign in Samar, he said, would be made out soon and forwarded to the war department.

## ASYLUM SCANDAL

The Kankakee Insane Hospital Investigation.

## IT MAY BE THWARTED

Impossible Requirements Made By the Board of Charities at the Outset.

Specified Charges Duly Sworn to Required—Newspaper Charges Ignored.

Kankakee, Ills., Aug. 12.—The striking feature of the opening session of the investigation of the state insane hospital here, which was commenced yesterday by the state board of charities, was the total absence of any presentation of specific charges of cruelty or neglect toward a single one of the 2,300 patients in the asylum.

Instead there was a picturesque and forcible attempt to show the necessity for putting the institution under a state civil service law. This attempt which was made by representatives of the civil service league of Chicago, was blocked to a large extent by the refusal of the investigators to go into that question. Attorney Fitzgerald on behalf of the Women and Children's Protective Association of Chicago called the attention of the board to newspaper articles concerning charges, but it was held that such articles were in the nature of gossip and could not be taken up in a formal investigation unless presented in sworn personal testimony.

Hoffman was an eccentric citizen, who had acquired the farm on which he lived and had saved considerable money, all of which he kept near him. When his wife found the body she also discovered the burning embers of the pile of bills her husband had so carefully saved and representing years of labor on the farm.

## Trust Right in South Africa.

Cape Town, Aug. 12.—The British trade commissioners who have been investigating trade conditions in South Africa, will sail for home Aug. 13 and publish their report in England.

In an interview yesterday one of the commissioners said: "Our revelations will come as a surprise to the British public. The situation here is far more serious than anyone imagines. There are fine openings in South Africa for energetic and up-to-date manufacturers, but trade is hampered by trusts and combines which threaten to cripple the development of the country." The commissioners proposed to make strong representations to British manufacturers concerning the workings of shipping, meat and machinery trusts and of operations on the stock exchange at Johannesburg as affecting the output of the mines. British and Dutch merchants here have co-operated heartily with the trade commissioners in their labors and furnished them with a mass of valuable data.

## A FIREBUG'S WORK

Peoria Is Terrorized By His Operations—A Suspect Arrested.

Peoria, Ills., Aug. 12.—The police and fire department were kept busy yesterday by the operations of pyromaniacs. The torch was applied to five buildings during the day, but the loss will not exceed \$25,000. The police arrested Edward Flanagan, twenty years old, and charged him with being the incendiary.

The first fire was started in the storehouse of the Val Blatz Brewing company. It was extinguished before serious damage had been done. Fire was next seen in Dooley brothers' coal sheds, but the damage there was nominal. Shortly after noon fire was discovered in Neumiller's livery barn. Nineteen horses and all the rigs were destroyed. A general alarm was sounded and every piece of fire-fighting apparatus in the city was called out. While they were fighting the Neumiller fire an alarm came from the Clark flouring mills two blocks away. An alarm also came in from the residence of Mrs. Reggy. The fire fiend began his work in Peoria about April 1, and so vigorously did he apply the torch during the month of April that the city council held a special session and offered a reward of \$500 for his capture and conviction. For weeks men lay waiting in alleys armed with shotguns, in hope of landing the reward. All this time he continued applying the torch. The fire underwriters' association offered an additional reward of \$500. Up to date he has succeeded in burning fifty-five horses and causing fire damages aggregating many thousands of dollars. When the flour mill fire broke out yesterday Flanagan was seen looking through a window and was seen to throw something into the building and then walk hurriedly around the block. He was followed and after the department had arrived at the fire he returned and was arrested.

Several large plate glass windows were broken and chimneys in the northern part of the city tumbled down. The water in Lynn canal rose five feet very suddenly, then subsided as quickly. A report from Juneau says that the little fleet there was pitched around and several boats capsized. The first long shock was followed by a lighter one. ## A DARING CRIME

Work of Three Daylight Robbers at Valparaiso.

## YOUNG WOMAN GAGGED

And Thrown Into a Bathtub Where She Almost Drowns Before Help Arrives.

The Thieves Make a Haul of Seven Thousand in Cash and Notes—No Clue.

Valparaiso, Ind., Aug. 12.—A remarkably bold trio of burglars entered the house of Dr. A. A. Stoneburner at 4:30 o'clock yesterday afternoon during the temporary absence of the family, overpowered and gagged the servant girl and escaped with \$7,000 in money, jewelry and negotiable papers. Dr. and Mrs. Stoneburner had gone for a drive, and one of the servants, Miss Minnie Hart, was at home. The men came upstairs from the cellar evidently and pounced upon Miss Hart from behind before she could make an outcry.

She was gagged with a towel, blindfolded and bound and then thrown into the bathtub, face downward, while the water was turned on full force.

The men then ransacked the house, took money, jewelry and papers and left. No neighbors saw them enter or leave, and although the officers are busy as yet been discovered. The domestic, who was saved from drowning by the timely arrival of the family, can give no description of her assailants. She is painfully bruised and is in a serious condition as a result of the nervous shock.

## CAMPMEETING AFFRAY

Shooting at the Spiritualists Meeting at Chesterfield.

Chesterfield, Ind., Aug. 12.—At the close of Women's Club day, about 5:30 Sunday evening, a shooting affray occurred at the entrance of the camp of the Spiritualistic association, when hundreds of people were passing in and out, and it is regarded as miraculous that someone was not killed. Fifteen minutes before the shooting, Mrs. May Wright Sewall of Indianapolis ended her lecture at the camp auditorium. Albert Lane of Anderson and two other men smuggled some beer into the camp. They were ordered out. Later Lane became intoxicated and quarreled. Edward Brooks, chief of the camp police, took Lane outside the grounds. As soon as the officer let go of him Lane drew a revolver and fired at Brooks, who was struck in the head and fell. Gatekeeper Sanford Carter rushed on Lane, who fired again, missing Brooks. The bullet went close to Carter's face, which was powder burned. Lane, who was powder burned, finally knocked Lane down, cutting open his scalp. Lane was taken to jail at Anderson.

## Quarrymen's Strike.

Bedford, Ind., Aug. 12.—L. P. McCormack, state labor commissioner, of Indianapolis, addressed the striking quarrymen at the opera house Sunday. A large number was in attendance and McCormack received close attention. His remarks were well received and the men are much elated over his presence and his efforts to settle the grievances. In an interview with McCormack before his departure for Oolitic, where he goes to have a conference with the quarry managers, he stated that he was not as yet prepared to say anything definite as to the result of his work here, but that from surface indications he had great hopes of having the trouble adjusted satisfactorily to all concerned.

Senators Fairbanks and Beveridge have both received letters from Congressman Overstreet of Indiana, secretary of the congressional committee, notifying them that it will be necessary this year to undertake a more elaborate speaking campaign than has ever before been required for an off year, and requesting them to give as much time as possible to the congressional committee. They are both requested to notify the committee if it can assign them to engagements in September and October, and if so

## Death of Mary L. Smith.

The following account of the death of Mrs. Mary L. Smith, formerly of Seymour, appeared last week in a local paper of Redwood Falls, Minnesota:

"Mrs. Mary E. Smith, mother of Mrs. E. Stegner of this city, passed away in Minneapolis on Friday last, and the remains were brought here for interment on Saturday.

Mrs. Smith had spent the winter at her home in Indiana, and was on her return to Minnesota. She stopped off at Minneapolis for a few days, with her daughter, and on Sunday was taken ill with bowel complaint, from which she died in a few days.

"Mary L. Hubbard Smith was born in New York on August 2d, 1820. She spent her childhood days in that state. In her youth she moved with her parents to Indiana, where she was married to S. W. Smith in 1839. Most of her married life was spent in that state and there Mr. Smith died some years ago. About 1898 Mrs. Smith came to Redwood Falls to reside with her daughter. For the last five years she has been quite blind, but was able to move about fairly well. She was resigned to her fate and lived in hope of some day seeing with a new vision and with new eyes that will never become sightless. She was always happy. She united with the M. E. church in childhood. Three daughters survive her, Mrs. Holmes of Connecticut, Mrs. Kennan of Colorado and Mrs. Stegner of this city.

# PATSY AND HIS CHARMER.

## A Wayward Pair Taken in Here and Returned to Greensburg.

Patsy Ward and his charmer have again been heard from. This time a S. I. brakeman reports that Patsy and Mrs. Weimer boarded his train at Elizabethtown on Saturday morning and rode to Seymour, where they left the train at the outskirts of that city. Sheriff Davis devoted Sunday to searching for this couple, but the above facts is all that he could learn. Officers at Seymour have been notified to arrest the fleeing parties wherever they can be located.—Greensburg News.

The above named parties were arrested here Monday night by the city police and put in jail and the sheriff at Greensburg notified. They were found at Mrs. Heiman's boarding house where they rented a room Saturday stating that they were man and wife. They were undisturbed until their arrest last night, and in the meantime Ward had made arrangements to do some work for one or two parties.

"Patsy" Ward formerly lived here, his right name being James P. Ward. When a youth he was a bootblack about town and while thus employing his time he was found guilty of robbing Len Hibner's meat market and sent to the reform school. Some years after that he was married and lived at Greensburg. His wife died a year or two ago leaving two children.

Mrs. Weimer, who came here with Ward, is the wife of Christian Weimer a Greensburg butcher. She has three children, the youngest not two years old.

Sheriff Jefferson C. Davis came over from Greensburg this morning and this afternoon returned to Greensburg with Patsy and his charmer, who will have to make answer to the authorities for their waywardness.

R. W. Waterbury has moved to Bedford where he has employment as tinner.

James Rinehart came home from a business trip to Crothersville this morning.

## CORPORATIONS MUST PAY

**Republican Tax Board Raises Their Assessment Nine Million Dollars.**

The pathetic stories of the corporation attorneys concerning the poverty of their employers which were related to the state tax board were properly recorded and after having them read by the stenographer, the men composing the board sharpened their pencils, made pages of figures and announced that they had increased by \$9,179,045 the valuation upon which steam and electric railroads, telephone, telegraph, express, pipeline and transportation companies must pay taxes.

The total taxable value of the property of this class of corporations doing business in Indiana is put down by the board as \$192,487,656, against \$183,306,611 last year.—Indianapolis News.

**"Sit" and "Set."**  
Some one who believes in teaching by example has concocted a lesson in the use of two little words which have been a source of mortification and trouble to many well meaning persons.

A man or woman either can set a hen, although they cannot sit her; neither can they set on her, although the hen might sit on them by the hour if they would allow it.

A man cannot set on the wash bench, but he could set the basin on it, and neither the basin nor the grammarians would object.

He could sit on the dog's tail if the dog were willing or he might set his foot on it. But if he should set on the aforesaid tail or sit his foot there the grammarians as well as the dog would howl metaphorically at least.

And yet the man might set the tail aside and then sit down and be assailed neither by the dog nor by the grammarians.

**Not Worry, but Slumber.**  
They were discussing suicides and the proneness of different peoples to depart in that way when one of those engaged in the conversation turned to a colored man and asked, "Why is it that so few of your people take their own lives?"

After scratching his head a moment the person addressed responded, "Well, I tell you boss; when a nigger sits down he don't worry, but goes to sleep."—New York Times.

**A Chiropodist's Advice.**  
A chiropodist advises that foot comfort is much enhanced if all callous places on the feet are made perfectly smooth. This can be done easily and the feet kept in excellent condition by using a fine pumice stone every morning after the bath. The pumice stone should, of course, be wet, and if rubbed daily over the points on the feet that have hardened or shown a tendency to harden the places can be made and kept smooth. After a corn has been removed, too, a light rubbing daily of the place where it has been will often prevent its return.

"Mon ami," said the Marquis de Croisic the other day, "the hotel keeper's life is an unhappy one. If he does not look to the least little detail, the whole thing goes—what do you call it? Ah, yes, on the blink."

"Here is example of what I say. When I had the Logeretz, there was once a dinner there at which Clarence Depew was a guest. I told the chef to put in the menu some dish in honor of him, and I forgot to look at the menu before it went to the printer."

"What do you think that imbecile of a chef had done? There?"

# Trying to Escape

From the penalty of outraged civil law is almost as useless as trying to escape the penalty of the violated laws of nature. The civil law rarely lets a man escape from punishment. The natural law never does.

The man who eats irregularly and without regard to nutrition will sooner or later be called upon to pay the penalty. He will begin to have a feeling of discomfort after eating, a sensation of undue fullness with bloating, belching and other symptoms of stomach trouble. Such a condition demands instant attention. Neglect will surely aggravate the disease.

Dr. Pierce's Golden Medical Discovery has cured thousands of sufferers from dyspepsia and other forms of stomach trouble, even when the disease had become chronic and all hope of cure had been given up.

"I was sick for over three years with a complication of stomach troubles," writes Mr. John H. Castana, residing at 2942 Arch St., Chicago, Ill. "Had tried every good physician I knew of, as well as many patent medicines, but received only temporary relief. One day a friend recommended your 'Golden Medical Discovery.' I immediately procured some and began its use. Commenced to gain the first week, and after I had taken only one bottle I could eat as well as any one without experiencing ill effects. I took five bottles, and to-day am happy to announce that I am as well and healthy as any one could be. I owe it all to Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of the food eaten, and the nutrition contained in the food being perfectly assimilated the whole body is permanently strengthened.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

If you ask your dealer for "Golden Medical Discovery," because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

**FREE!** Dr. Pierce's Common Sense Medical Adviser is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. PIERCE, Buffalo, N. Y.

### MEMORY'S PRANKS.

Why Do We Remember Certain Things and Forget Others?

The vagaries of memory are some of the most interesting of those connected with the human mind and body. Why do we forget certain things and remember others? Myriads of these irregularities are as yet unaccounted for. Perhaps not even the cleverest metaphysician will ever account for them.

Professor James reminds us how something which we have tried in vain to recall will afterward, when we have given up the attempt, "saunter into the mind," as Emerson says, as innocently as if it had never been summoned.

Again, bygone experiences will revive after years of oblivion, often as the result of some cerebral disease or accident.

Such a case is the one quoted by Coleridge of a young woman in Germany who could neither read nor write, but who was said to be possessed of a devil because, in a fever, she was heard raving in Latin, Greek and in an obscure rabbinical dialect of Hebrew. Whole pages of her talk were written down and were found to consist of sentences intelligible in themselves, but not having the slightest connection with one another. To say that she was possessed of a devil was the easiest way of accounting for the matter.

At last the mystery was cleared up by a physician, who traced back the girl's history until he learned that at the age of nine she was taken to live at the house of an old pastor, a great Hebrew scholar, and that she remained there until the pastor's death. It had been for years the old man's custom to walk up and down a passage near the kitchen and read to himself in a loud voice.

His books were examined, and among them many of the passages taken down at the young woman's bedside were identified. The theory of demoniacal possession was abandoned.—Youth's Companion.

### Are Willow Trees Lightning Proofs?

"In all my forty years' experience with trees and plants," said a well known gardener, "I have yet to hear of a willow tree, being struck by lightning. Spruce trees, whitewood and pine trees sometimes almost seem to attract the electricity, and oak and other large trees and even many small trees are often killed. But willow trees seem for some reason to be immune to death or injury in this shape, and I have never seen or even heard of a tree of this family which lightning has ever struck."—Cleveland Leader.

### Blunt.

"I should like to go to my mother-in-law's funeral this afternoon, sir," said the bookkeeper to the "old man."

"So should I," replied the proprietor as he turned to his desk again.—Tit Bits.

### HERE'S A POINTER.

Read It, It's Short, Sharp, and to the Point.

Mr. J. Blair of 114 north Lynn St. Seymour, Ind., says: For some time I have been a victim of severe nervousness, sleeplessness and indigestion. I heard Dr. A. W. Chase's Nerve Pills well spoken of, and thought I would try them. I got a box of the pills a A. J. Pollen's drug store and after using one box of the medicine I can say that the results were very satisfactory and I think with future use I would get permanent results. I think these pills a grand tonic."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

### Averting a Panic.

On one occasion John Philip Sousa by his promptness was the direct means of stopping a panic which might have had the most disastrous results. While his band was playing before 12,000 people in St. Louis the electric lights in the hall went out suddenly. People began to move uneasily in their seats, and some even began to make a rush for the doors. Coolly tapping with his baton, Sousa gave a signal, and immediately his band began playing, "Oh, Dear, What Can the Matter Be?" A tiny ripple of laughter that went round the audience showed that confidence had partially been restored. When the band began to play "Wait Till the Clouds Roll By," the laughter deepened into a roar of merriment that only ended when the lights were turned on again.

### A YOUNG LADY'S LIFE SAVED

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Charles H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by C. W. Milhous

### A UNIQUE SENTENCE.

THE NOVEL PENALTY A JUDGE IMPOSED UPON TWO MEN.

Both Prisoners Were Condemned to Jail Until One of Them, a College Graduate, Taught the Other How to Read and Write.

Along in the seventies the late Judge Arnold Krekel was holding court at Jefferson City, relates an old timer, when there appeared before him two men charged and indicted for a violation of the United States laws, one of whom will be called Brown. He was charged with cutting timber on the public domain. Brown was about 40 years old and had been reared on the border in Arkansas and never had any opportunities for schooling, hence was unable to read or write. In his endeavors to get a living he had cut timber suitable for making ax handles on United States lands, which led to his arrest and imprisonment. The other man will be called Jones, for the real name of both men are not known in the memory of any one who witnessed the incident.

Jones was charged with and indicted for having sold liquor to the Indians. Mr. Jones was a native of New York, a graduate of Union college and was educated for a lawyer. He possessed a highly cultured mind, a good Latinist and thoroughly scholarly in all sorts of books. Not succeeding in his profession in his native state, more from lack of application than otherwise, he left that country and plunged into the great west and located nobody knew where, but he drifted into the lower strata of society, and to obtain the necessities of life he resorted to "bootlegging" among the red men of the Indian Territory border. His arrest and imprisonment followed.

The two men were arraigned before Judge Krekel and the indictments read. They both pleaded guilty and threw themselves upon the mercy of the court. The court questioned both prisoners at length and drew from each his history. He recounted the wrongs they had been guilty of against society. He did this in a kindly tone and manner, suggesting in a mild form that both might have been useful members of some community had they sought honorable means and methods to secure a livelihood.

The court seemed puzzled how to assess a punishment that would meet the ends of justice and protect the government, its lands, its wards and society. Finally, sitting upright in his chair, looking over his glasses as both men stood before him, in a voice little louder and more positive than usual he said:

"Mr. Brown, it is the sentence of the court that you be confined in the Cole county jail until you are educated to read and write." The judge then turned his eyes upon the other prisoner at the bar and, possibly in a louder voice, said, "Mr. Jones, it is the sentence of the court that you be confined in the Cole county jail until you have taught Mr. Brown to read and write, and I enjoin upon the keeper of the jail to afford you every facility possible with the safe keeping of his prisoners."

The lawyers and spectators in court looked with astonishment at each other as the sentence was concluded, and the marshal led the prisoners out of the courtroom.

It was the second term of the court after this incident when the marshal conducted Brown and Jones into court, and it was announced by the court that Brown had completed his education—ready to graduate—able to read and write. Judge Krekel looked over his glasses and asked that the prisoner give him an evidence of his being able to read. Brown stood up and read a few paragraphs from a newspaper to the satisfaction of the court, when he said, "Mr. Clerk, will you let him sit at a table and write me a letter?"

Paper, pen, ink and a seat were furnished Brown, who went to work to write a letter to the court. For some time the poor fellow struggled with the task, and in the meantime Jones was very nervous, fearing he would be compelled to go back to jail and "take up school" again. Finally the clerk said, "May it please your honor, the prisoner can write, but cannot form sentences to make it intelligible."

"Mr. Clerk," said the court, not taking his eyes from the court docket he was looking at, "you will dictate a letter for him and see what headway he makes with that." The clerk dictated a letter that the prisoner wrote quite readily, which subsequently was passed up to the court, who read the same and after giving the prisoners a short lecture both were discharged and walked from the courtroom free men.—Jefferson City Tribune.

### Fish That Change Color.

It has been found that certain prawns, common along the coasts of England, change their color at least twice every 24 hours in order to harmonize with the stronger or weaker light prevailing near the surface or in the deeper water. As evening approaches these fish lose their distinctive day colors, and all assume a transparent azure blue. The change begins with a reddish glow, followed by a green tinge which gradually melts into blue. The day and night change has become so habitual that specimens kept in perpetual light or perpetual darkness nevertheless undergo the periodic alteration of color.

### Dietary Repartee.

"I think," said A. Bronson Alcott to one of his conversations, "when a man lives on beef, he becomes something like an ox. If he eats mutton, he becomes sheepish, and if he feeds upon pork may he not become swinish?"

"That may be," said Dr. Walker, "but when a man lives on nothing but vegetables I think he is apt to be pretty small potatoes."

### Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Injurious Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

### FACTS AND FICTION.

The Experience of Seymour Citizens is Easily Proven to be a Fact.

The most careful investigation will prove that the following statement from a resident of Seymour is true, read it and compare evidence from strangers residing in far away places. Still closer investigation on the subject will surprise you to learn the number of people in Seymour who re-echo what this citizen says:

Mr. Jesse Day, of Mill street, veteran of the civil war, says: "I procured Doan's Kidney Pills sold at C. W. Milhous, druggist, and their use strengthened my back and removed the pain. They also banished the aching in the back and top of my head and regulated the action of the kidney secretions. There has been no return of the trouble since."

### RIPANS

The simplest remedy for indigestion, constipation, biliousness and the many ailments arising from a disordered stomach, liver or bowels is Ripans Tablets. They have accomplished wonders and have renewed the necessity of calling a physician for many little ills that beset mankind. They go straight to the seat of the trouble, relieve the distress, cleanse and cure the affected parts, and give the system a general toning up. The Five Cent packet is enough for an ordinary occasion. The family bottle, 50 cents, contains a supply for a year. All druggists sell them.
